

## FINE ART SCULPTURE AND FORENSIC ARTISTS OF GEORGIA

Through my company, Forensic Artists of Georgia, I currently work as a freelance forensic artist for various law enforcement agencies. I believe that composite art and facial reconstruction are extremely useful tools in the aid of identifying crime suspects and victims. My hope is to encourage its employment to the fullest potential as a superior crime-fighting tool. As a lifelong learner, I continue my training even today.

My academic credentials include a B.S. in Medical Technology from the Medical College of Georgia, graduate work in anthropology at the University of Georgia, and completion of my Certified Forensic Artist degree.

My experience in Fine Art Sculpting includes studies at The Florence Academy of Art, Florence, Italy; Cherry Lion Studios, Atlanta; Brookgreen Gardens, Litchfield, South Carolina, and workshops with Philippe Fauraut.

You can find my work at Gallery on the Square in Gainesville, GA, and at Skylake Galleries in Sautee-Nachochee, GA.
