# FINE ART AUCTION

MARCH 2 - 5, 2022

## PARTICIPATING ARTIST

### BETSY AYERS

For the past two years, I haven't shared my art or my process with others. Instead, I've been in the studio exploring and experimenting, uncovering each layer of what it means to create and work as a full-time artist. I've spent countless hours both in solitude and with other creative pathfinders, pushing paint, mixing colors, journaling, reading about art and researching techniques. Now I'm ready to show and share!

Betsy Ayers is a full-time professional visual artist based in Atlanta. She works across many media: drawing, painting, and printmaking. Her creative process is inspired by deep analysis of human behavior through the study of psychology and the self. Her work seeks to step out of rigid constructs and enter a place that represents letting go and freedom by way of intuition and experimentation.
