# FINE ART AUCTION

## Corinne Mitchell

Welcome to my Studio! As a spiritual soul, I yearn to express myself visually to connect my inner thoughts and feelings with a tangible output of raw textures of handmade paper integrated with fluid acrylics and natural earth pigments. I am always striving to bring the sensation and harmony of nature into the home through art. My motto is "play first and refine later." I feel like I let the Spirit move me and guide my hands. My style is a push and pull of adding and subtracting, just like in nature. I have learned to embrace and appreciate this spiritual/meditative process through years of experimentation. I love the quote, "Adopt the pace of nature: her secret is patience."- Ralph Waldo Emerson
