

GAYLE PRINTZ WORLD MASTER ARTIST

“To provide viewers freedom to find emotional meaning in the intangible by evoking the unconscious use of their imaginations.” – Gayle Printz

World Famous American Abstract painter, Gayle Printz, picked up her first paintbrush in May of 2020 to reflect upon the beauty remaining in a world interrupted by the pandemic. In August of 2020, her paintings were on exhibit in Europe and, by November of 2020, Gayle's artwork was added to the Permanent Collection of Le Musée de Peinture de Saint-Frajou in France.

A renowned World Master Contemporary Artist, Gayle Printz is now one of the most important artists of our time. Printz continuously creates artworks that captivate the viewer's attention—provoking the imagination to capture the personal and universal significance that lies beneath. An unparalleled abstract talent, Printz exhibits a uniquely recognizable style, and an unmatched artistic ability, that has firmly established Printz paintings as a reference for the International Contemporary Art Community.

Said to defy categorization, Printz's ground-breaking abstract artworks are beautifully composed, boldly expressive, balanced, inventive, passionate, inspiring, and already worth a fortune. Breaking what seem to be established artistic rules, Printz paintings are said to possess a revolutionary technique defined by Gayle's liberal use of unconventional colors, a three-dimensionality that allows new imagery and meaning to appear as you change the angle of your gaze, the deliberate, yet unrestrained, movement of brushstrokes within the painting to convey abstract concepts, and a palpable sense of artistic freedom.

In contrast to the artwork that preceded her, Printz freely cross artistic genres revealing what art critics refer to as the qualities of an artistic prodigy. Printz paintings range from purely abstract, to abstract geometric, portraits, landscapes, modernistic, expressionistic, and post-impressionistic to paintings reminiscent of the 19th Century Masters. Asked how she is able to do this, Printz will tell you that, “As an artist without training, I am unaware of the rules. And in a world without rules, the artistic possibilities are endless.” As is her staggering list of artistic accomplishments.

Universally respected, and Internationally beloved in the Art World, Gayle Printz is said to be the best thing to emerge from the Pandemic. Printz is a World Master Contemporary Artist, one of Sixty World Master Artists, and an International Contemporary Celebrity Master.

Having accomplished all of this since May of 2020, Gayle Printz is nothing short of extraordinary. So extraordinary, in fact, that every Printz painting is an international award winner. When asked which accomplishment she values most, Gayle replies without hesitation that, "The greatest prize of all is when collectors return for more because my work has touched them so powerfully." Gayle's patrons include art collectors, investors, hotel design groups, businesses, actors, musicians, physicians, professionals, and art lovers in general—every one of whom has purchased more than one Printz painting. Why? Because Printz Paintings are not only groundbreaking, but they also now rank among the World's Top Art Investments.

Art has the potential to inspire change and contemplation. In the case of Gayle Printz, change and contemplation inspired art. Printz paintings are the result of a life-changing pandemic shared by People around the world. Because of this, Gayle sees art as a universal language allowing us to find meaning and experience the world as one. By translating the colors of her world into the universal language of art, Gayle Printz hopes to promote unity and inspire all People to celebrate the beauty in life.
