FINE ART AUCTION

Melvin Toledo

Melvin Toledo was born in a small town in Northern Nicaragua. His interest in art began in High School while drawing characters from the popular manga series Dragon Ball Z. Encouraged by family members, he left his hometown in 2000 to attend the School of Fine Arts in Tegucigalpa, Honduras. The following year, he began work as a painter using a mixture of oil and lithographic ink for Decoraciones Hondureñas, a family business, which sold his paintings across the country. In 2007 he moved to the United States where he began to paint exclusively in oils.

After two years in North Carolina, he moved south to Atlanta, GA, where he currently lives with his wife and children. Melvin's work can be seen by appointment in Tucker, GA and at Gallery 202 in Franklin, TN.
