

Paints: Burnt Sienna, French Ultramarine Blue, Brown Madder, Antwerp Blue, Alizarin Crimson, Opera Rose*, Gamboge Nova* (by Holbein), Winsor Yellow*, Peacock Blue* (by Holbein).

All colors are Winsor & Newton, Artist Grade pigments except Peacock Blue and Gamboge Nova are by Holbein. The four colors with * symbol you may want to buy 14ml tubes since we need extra of these for mixes.

The pigments need to be poured into the palette at least 48 hours before using them so they can harden. While the paints are wet, stir them with a toothpick or a paper clip to make paints dry flat (see palette video <http://www.dylanpierce.com/student>)

I like to pour them with Complements across from each other.

Paper: Arches 300lb cold press. The paper comes in sheets of 22" X 30" we'll need to break it down into ¼ pieces. You can use a yard stick to score it and then bend it back and forth to break it down. Don't mistake 300lb for 300gsm.

Brushes: For round brushes in sizes 0, 1, 2, 4, 6, 12 Cotman, or Princeton 4950 series. Either of these quality synthetics will do good. It's not necessary, but for large washes, a 1in wash brush works well. The size 12 round brush can be instead though.

Palette: I use a palette that I would highly recommend having, it is what I've used since I began watercolor. This is called the *Robert & Sharon Long Slant Palette*. This palette is sold exclusively at <http://www.bindersart.com> in Atlanta (tell them that you are in my class and they will give you a discount) or the empty palette can be ordered from <http://www.slongwatercolors.com/34.html>. Although, you may use any palette I use this one because it has slanted mixing wells and has sharp edges not rounded.

Cleaning Pad: You will also need to bring a roll of toilet paper and a roll of Viva paper towels. We'll make a cleaning pad for your brushes.

Water bowl: I use a 6" X 6" X 2" Tupperware tray for water which works perfectly to store your cleaning pad in while traveling.

Pencil and Eraser: A "B" pencil works well and a kneaded eraser. Please use it very lightly.

You may prefer mail ordering your supplies, many times the store is out of something. Little Jerry's has my supply list all ready, you will need to choose between 5ml and 14ml paint sizes and which paper you want. At the store you can buy one piece of paper at a time but mail ordering you must buy three pieces... jerrysartarama.com/teacherscart Jerry's has good prices, it should cost around \$160 for everything you need and you will qualify for free shipping. The palette at Jerry's is not my favorite but it will do.
